

REJISH KHANAL

contact@rejishkhanal.com.np / +977 9862766994 / Kathmandu, Nepal

Summary

Technical SEO Specialist and Full-Stack Developer with hands-on experience across the entire search optimization stack from crawl architecture and Core Web Vitals to schema markup and GEO/AEO readiness. Unlike most SEO practitioners, I implement technical fixes directly in Next.js, Django, FastAPI, Laravel, and PHP, eliminating developer handoff delays. Currently managing multi-client SEO across Nepal and Australia, with measurable improvements in indexing, rankings, and organic traffic.

Professional Experience

SEO Specialist

Gripas Marketing, Kathmandu | March 2026 – Present

- Led technical SEO audits implementing structured data (JSON-LD), clean URL architecture, mobile-first enhancements, and crawlability fixes improving indexing and rankings across client websites.
- Conducted keyword research, competitive analysis, and search intent mapping via Google Search Console and GA4, driving organic traffic growth across multiple client verticals.
- Optimized Core Web Vitals (LCP, CLS, FID), internal linking for topical authority, and E-E-A-T signals contributing to sustained first-page rankings for e-commerce and service-based clients.
- Executed entity optimization and AI-assisted content strategies for visibility in Google AI Overviews, ChatGPT Search, and Perplexity (GEO/AEO readiness).
- Generated actionable GA4 and GSC performance reports; tracked keyword trends and recommended data-driven adjustments aligned with algorithm updates.

SEO Specialist & Web Developer

E-Prabidhi Pvt. Ltd., Kathmandu | May 2025 – Feb 2026

- Increased estimated organic traffic by 40–60% across client projects through technical SEO audits, structured data implementation, and on-page optimizations.
- Refactored backend code and database queries (PostgreSQL / MySQL / Redis) in Django, PHP, and Laravel reducing page load times and boosting Core Web Vitals scores.
- Optimized on-page elements (meta tags, headings, alt text, semantic HTML) using Vue.js, HTML5, and JavaScript to align content with search intent.
- Executed site speed enhancements and link-building strategies contributing to improved domain authority and sustained organic growth for e-commerce clients.

Backend Developer Intern

E-Prabidhi Pvt. Ltd., Kathmandu | September 2024 – March 2025

- Developed and optimized RESTful APIs using Django, PHP, and Laravel with clean URL structures and JSON-LD schema markup for improved indexing and search visibility.
- Optimized PostgreSQL/MySQL database queries and refactored legacy code, reducing API response times and improving page speed metrics critical for Core Web Vitals.
- Performed technical site audits and debugging with Selenium, resolving crawl errors, broken links, duplicate content, and indexing issues.
- Authored developer documentation and SEO implementation guides, reducing onboarding time and ensuring consistent technical standards across projects.

Other Experience

Junior Quality Assurance Officer

Florid Laboratories Pvt. Ltd., Lalitpur | Feb 2022 – Jul 2024

- Ensured GMP/SOP compliance through process validation, sampling, and detailed documentation (BMR, QC records, stability samples).
- Built cross-functional process documentation and checklist systems; closed audit observations and improved audit readiness through CAPA follow-ups.
